ABOUT

My name is Tyler Kemme and I'm a Full Stack Web Developer working out of Austin, Texas. After getting my B.S in Computer Science at the University of Texas at Austin, I began my journey into the world of Front-End Development. Since then, I have mastered the art of ADA compliant, fully responsive web design using a variety of technologies. I always deliver pixel-perfect, performant sites and I can adapt to any requirement. As a Back-End Developer, I've created custom CMS's, complex payment and loyalty platforms, and AWS-backed systems that interact with a variety of third-party services.

PROGRAMMING SKILLS

React, Golang, Next.js, Wordpress, SCSS, Django, Docker, ES6, Express.js, Node.js, Storybook, Gulp, JQuery, Bash, AWS Lambda, AWS CloudFormation, Python 3

WORK EXPERIENCE

T3 Thinktank — *Full Stack Developer* **—** Austin, TX   **April 2017 - Present**
- Built applications from start to finish as tech lead while assisting a team of less experienced designers and developers
- Produced pixel-perfect, ADA compliant front-end websites using React, Next.js, Wordpress, and SCSS
- Developed back-end systems using Golang, Django, Python, and a variety of AWS services
- Worked with designers, product managers, and QA analysts to meet the needs of clients in an Agile working environment
- Delivered applications for a wide variety of large companies such as Pizza Hut, Hallmark, UPS, Allstate, Le Pain Quotidien, and more
- Collaborated with the T3 Labs group in my spare time to create custom experiences such as a web-based AR platform for T3's SXSW event

CodeBOX LLC — *Full Stack Developer* **—** Austin, TX   **August 2015 - April 2017**
- Created custom Wordpress applications with PHP, JQuery, and SASS
- Developed custom Wordpress Theme frameworks alongside other codeBOX developers
- Worked as part of a team of developers in a remote, Agile environment

Pexus LLC — *Web Developer* **—** Austin, TX   **April 2015 - September 2015**
- Developed a Java/Tomcat/Groovy/Grails secure mail messaging Web application
- Followed development guidelines provided by Pexus CEO using a custom Linux build
- Completed work in a completely remote environment

Kinnectpay Enterprises LLC — *Web Developer* **—** Austin, TX   **March 2015 - August 2015**
- Assisted the Kinnectpay CEO with basic website maintenance
- Optimized the site for speed and security
- Recommended ways for the site to grow

EDUCATION

The University of Texas — Austin, TX   **December 2014**
- *Bachelor of Science in Computer Science*
  - INFOSEC Certificate in Information Security
  - GPA: 3.02
